

# Why Cloud?

Streamline your IT systems & improve user experience, with the Cloud.

## Why migrate to the Cloud?

- ✓ Gain the ability to work remotely, without compromising user productivity
- ✓ Remove the need to maintain infrastructure hardware
- ✓ Simplify the management of your IT, by eliminating infrastructure management

## What about my business' Security?

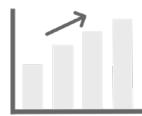

We partner with Microsoft Azure, for all our Cloud Offerings. Their security levels are unrivalled compared to other providers. So you can have peace of mind knowing your business data is safe in the Cloud.

## What are the advantages of the Cloud?

### Simplified Cost Model

Reduce on Capital Expenditure. Maximise your IT budget by only paying for what you use.

### Improve Scalability

Gain the ability to increase your server storage quickly. As and when your business requires it.

### Upgrade User Experience

Get the 'office experience' on the go. Allowing your team to be productive from anywhere.
